EQUAL EMPLOYMENT OPPORTUNITY

NEED FOR POLICY

General Electric Company is committed to equality of opportunity, a basic goal of a free society. Profitable, responsible growth and the business success of the General Electric Company, including the personal growth of individuals, result from enhancing and utilizing the abilities of all individuals to the fullest extent practical within the framework of the business environment. By recruiting, hiring, compensating, training, promoting, and in all ways providing fair treatment to employees on the basis of merit, the effectiveness of the Company's operations can be maintained while enhancing both the nation's economic progress and that of individuals.

To further this goal, there is need for a Company Policy concerning Affirmative Action in Providing Equal Employment Opportunity.

Related to this is the determination to assure that managers and employees at all locations comply with both the spirit and intent of federal, state, and local laws, government regulations, executive orders, and (where applicable) conciliation agreements, consent decrees, and court orders which relate to equal opportunity and affirmative action.

Thus, there is a continuing and urgent need for managers to take affirmative action in providing equal employment opportunities. Managers must assure, through action and teaching, that positive steps are being taken to comply with this Policy.

STATEMENT OF POLICY

It is the policy of the Company to employ, train, compensate, promote, and provide other conditions of employment without discriminating by race, color religion, national origin, sex, age, handicap or veteran status.

While appropriate job-related standards are to be ap-

plied and maintained consistent with profitable, responsible growth in a competitive society, affirmative action will be taken to seek out and assist individuals at all echelons to meet job standards and reach their full potential. Affirmative action will also be taken to employ and advance qualified handicapped individuals, disabled veterans, and Vietnam-era veterans.

A related goal of the Company is to be recognized as a civic leader in programs that enhance employment opportunities for all citizens within communities in which Company facilities are located.

While this Policy is applicable for components within the United States only, the principles of equal employment opportunity are appropriate for the guidance of General Electric components on a worldwide basis consistent with the applicable laws, customs, and practices within each country.

RESPONSIBILITY AND AUTHORITY

Each manager is responsible for applying this Policy within the manager's component. Managers of components at department echelon and higher are also responsible for assuring that effective equal employment opportunity practices and programs are developed, implemented, and measured. Responsibility for overall management of affirmative action programs should be assigned for each organization component, including (where necessary) responsibility for coordinating programs on a location or organizational basis.

RESPONSIBILITY FOR COUNSELING

Corporate Employee Relations Operation will provide guidance, education, training, bulletin, and procedures for implementing this Policy, including requirements for reporting, monitoring, and review.

CERTIFICATION OF NON-SEGREGATED FACILITIES

Each Bidder is required to file a fully executed Certificate of Non-Segregated Facilities once a year.

CERTIFICATION OF NON-SEGREGATED FACILITIES

The Bidder certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The Bidder certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments and that he will not permit his employees to perform their services at any location under his control where segregated facilities are maintained. The Bidder agrees that a breach of this certification will be a violation of the Equal Opportunity clause in any contract resulting from acceptance of this bid. As used in this certification, the term "segregated facilities" means any waiting room, work area, restrooms and washrooms, restaurant dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, or national origin, because of habit, local custom, or otherwise. The Bidder agrees that (except where the Bidder has obtained identical certification from proposed subcontractors for specific time periods) he will obtain identical certification from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity clause and that he will retain such certifications in his files.

The Bidder certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments and that he will not permit his employees to perform their services at any location under his control where segregated facilities are maintained. The Bidder agrees that (except where the Bidder has obtained identical certification from proposed subcontractors for specific time periods) he will obtain identical certification from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity clause and that he will retain such certifications in his files.

EQUAL EMPLOYMENT OPPORTUNITY

NEED FOR POLICY

General Electric Company is committed to equality of opportunity, a basic goal of a free society. Profitable, responsible growth and the business success of the General Electric Company, including the personal growth of individuals, result from enhancing and utilizing the abilities of all individuals to the fullest extent practical within the framework of the business environment. By recruiting, hiring, compensating, training, promoting, and in all ways providing fair treatment to employees on the basis of merit, the effectiveness of the Company's operations can be maintained while enhancing both the nation's economic progress and that of individuals.

To further this goal, there is need for a Company Policy concerning Affirmative Action in Providing Equal Employment Opportunity.

Related to this is the determination to assure that managers and employees at all locations comply with both the spirit and intent of federal, state, and local laws, government regulations, executive orders, and (where applicable) conciliation agreements, consent decrees, and court orders which relate to equal opportunity and affirmative action.

Thus, there is a continuing and urgent need for managers to take affirmative action in providing equal employment opportunities. Managers must assure, through action and teaching, that positive steps are being taken to comply with this Policy.

STATEMENT OF POLICY

It is the policy of the Company to employ, train, compensate, promote, and provide other conditions of employment without discriminating by race, color, religion, national origin, sex, age, handicap or veteran status.

While appropriate job-related standards are to be ap-

plied and maintained consistent with profitable, responsible growth in a competitive society, affirmative action will be taken to seek out and assist individuals at all echelons to meet job standards and reach their full potential. Affirmative action will also be taken to employ and advance qualified handicapped individuals, disabled veterans, and Vietnam-era veterans.

A related goal of the Company is to be recognized as a civic leader in programs that enhance employment opportunities for all citizens within communities in which Company facilities are located.

While this Policy is applicable for components within the United States only, the principles of equal employment opportunity are appropriate for the guidance of Cieneral Electric components on a worldwide basis consistent with the applicable laws, customs, and practices within each country.

RESPONSIBILITY AND AUTHORITY

Each manager is responsible for applying this Policy within the manager's component. Managers of components at department echelon and higher are also responsible for assuring that effective equal employment opportunity practices and programs are developed, implemented, and measured. Responsibility for overall management of affirmative action programs should be assigned for each organization component, including (where necessary) responsibility for coordinating programs on a location or organizational basis.

RESPONSIBILITY FOR COUNSELING

Corporate Employee Relations Operation will provide guidance, education, training, bulleting, and procedures for implementing this Policy, including requirements for reporting, monitoring, and review.
